

## SCANDRILL, INC to Release its 9th High-Spec, Dual Fuel Rig, the SCAN Liberty

HOUSTON, June 15, 2021 -- SCANDRILL, INC. announces that the company will release its 9<sup>th</sup> high-specification, energy efficient rig, the **SCAN Liberty**.

The **SCAN Liberty** is the company's 9<sup>TH</sup> high-specification Norseman II™ Series rig, designed with the latest technology to meet and exceed customer demands. The SCAN Liberty is capable of drilling wells in excess of 30,000' feet. This rig has been outfitted with energy efficient equipment designed to drill long lateral lengths from multi-well pads.

"Not only have land rigs become 'smarter' and more automated, they are environmentally-friendly and energy efficient. The SCAN Liberty is equipped with an advanced engine control system and the ability to run directly off the electric grid. Our company is thrilled to commission the **SCAN Liberty**." said Paul Mosvold, SCANDRILL's President and COO.

The **SCAN Liberty**, a 2000-HP AC-powered rig, has been outfitted with the latest equipment. Equipment featured on this rig includes:

- An OWI AC 2000-HP drawworks package
- A Veristic walking system for multi-well pad drilling
- Four Caterpillar engines with Dual Gas Blending Systems
- Three F-1600 mud pumps with 7500 PSI fluid ends
- Forum FH-80 'Iron Roughneck'
- Forum S3000 Hydraulic Catwalk
- GDS TDS-11 Hi-Tork AC 500-ton top drive

### About SCANDRILL, INC.:

SCANDRILL, INC. is celebrating its 43rd year in business. Since 1977, the company has provided land contract drilling services to independent and major oil and gas exploration companies. Headquartered in Houston, Texas, with operational offices in Tyler, Odessa and Yukon, the company's 31 rigs are drilling in Texas, Louisiana, Oklahoma and New Mexico.
